Comment

Ran into aggressive cows/bull. Need to manage for wet times and dog/cow run-ins
Additional access from town w/out using car
Connection to town
New trail development in state land
Access from town
Connectivity: access to Squaw Creek or Sprigs
Switchback trail from G&T to Backside
Reconstruction, really rutted
Sketcky bridge, need a new one
More trails on BLM land
New trails on BLM land
Build new trails that run perpendicular to drainages, retire improperly built rutted trails
R-track and two single tracks parallel each other, too redundant
Fix rutted trail or eliminate unsustainable ones
Bathrooms
Parking on the same side as trails, signage to and throuh rock to trail
Need signs along route so people keep on trails
Trail map
Off highway parking
Access to livestock corrals w/out disrupting parking
General signage at trailhead
Install signage with map and trashcan at trailhead
Better parking area, pit toilet
Sign/map: education at trailhead
Need signs, bags, garbage can for dog poop
Rehab and closure of trails detrimental to surface (erosion/overuse)
Erosion, really rutted, switchbacks instead of straight up
Too much use for cattle grazing
Trail connecting from town possibly with easement through private land - Sprigg's or other
Less cattle...one persons economcic gain should not be put before the health of these lands
Invasive species management plan
Amount of trails need to be reduced with marking
Need to have overall vision for Bus trail network and formally adopt trails
Intersectional directional signage
trash/metal pickup and re? scrap fence wire
Develop a trail plan. Define trails and signage. Close some.
Too steep and eroded
Private lands notices...?
Education on keeping single track as single track - don't walk abreast, new ruts, etc
Too skinny and deep, rutted out (next to two track)
