

Place Name	Planning
Bus	Connect to Squaw Creek? Spriggs? More accessibility. Wait on this until erosion
Bus	Finalize trail analysis at Bus Loops
Bus	Collaborative trail planning effort at Bus Loop
Bus	Prepare for trail etiquette
Bus	Needs recreation permit!
Bus	Needs parking
Bus	Invasive species management
Bus	Responsible party
Bus	Parking
Bus	Define system lease
Bus	Master Bus Loop plan
Bus	Parking
Bus	Education kiosk
Bus	Parking - additional needed with lease
Bus	Erosion trail problems: steep trails not sustainable
City of Lander	Northside river walk, disc golf course trail
City of Lander	Lander hub Safe Routes to School
City of Lander	City connection to Sinks and other trails (Bus)
General	Trail conditions monitoring system online (trailforks, strava)
General	More variety in types of trails
General	Interconnecting multiple existing trail systems (like Upper Brewers did)
General	Connect trail systems to the city, especially Sinks and Bus (so no need to drive)
General	Connect to trails around town
General	Could connect Lucky Pond to state school area
General	Connect to JBR from Lander
General	County wide master plan for trails
General	Plan to manage increased usage with multiple users
General	Connectivity: connect complete area w/out car infrastructure needs
General	Dogs!! Owner responsibility if user conflicts
General	Trapping within 50 yards
General	Trail condition limitations
General	Illegal trails, formal plans
General	Joint Community Trail Commission (everyone represented) to plan, identify, find
General	Digital conflict resolution tool
General	Concern: dogs chasing wildlife and cows. Dogs on leash or w/in voice control
JBR	Erosion control
JBR	Add bathroom! Port-a-potty just for summer months? (cost share)
JBR	Erosion
JBR	Collaborative trail planning and conflict mitigation w/property owners
Sinks	Wild Iris to Sinks trail (Indian trail?)
Sinks	More wintertime dry hiking and riding options: more months of use

Sinks	Sunny side trail in Sinks
Sinks	Resource planning for erosion: Fairfield Hill
Sinks	Stock Bypass: need parking at base for horsetrainers
Sinks	Connectivity
Sinks	Fairfield erosion
Sinks: Lower	Fairfield Hill, potential on sunny side of canyon
Sinks: Upper	Spread usage on broader Loop Road area

Data & Info

| control

Define sustainable routes

Inter city pathways knowledge

Education on invasive species

| funding

Create micro-siting plan timeline to make sure loops is created from Falls Træ

Whole system plan across ownership

multit-use shared system motorized and non

Education & Use Management

Need current analysis of trail sustainability
Focused education on stakeholder cooperation driven by the
Education to other users concerning uses
Community outreach
No off trail use at the Bus
Signage: user conflict, where to park
Spread access, accountability
Signage about trash, dog refuse, weeds, trail etiquette
Identify conflicts
Sustainable trail design
Educating hikers/bikers on horse awareness
Trail courtesy, yield signs

Municipal/County/WYDOT

More education on trail right-of-way. Start at bike shops, bike
Updated trail user apps for recreational tourists
More novice trails: elevate quality of life
Ways to increase partnerships to help land management agency
More difficult trails (right now mostly intermediate)
Accessibility for disabled users
Better signage and education about sharing trails w/multiple
Mountain bike guide for Lander area
Trail etiquette, limitation education: education organization?
Educational signage
Invasive species management

Awareness of private land boundaries, signage
Erosion: seasonal or conditional closures?
Mitigate user conflict
Add toilet and trash cans

Signage about where to park for stockbypass
Signage for where horses go, bikes go, hikers go to Falls
Improve existing system "sustainability" funding

Broader trail difficulty range
Connectivity with total system

Other

Too high use for cattle grazing lease
community (trail stewardship)
Don't use earbuds
Blind curves: speed control
State statutes not allowing leased easements
Need Bus managed for trail recreation

Incentive for land owners to share land with trail users
Community success award for trail group to celebrate
Treatment of ebikes and how we are going to handle ebikes
cies (ambassadors from local groups)

users: who yields to whom?

Impact and effect on adjacent property owners (Brett Borg)
Concerns: livestock loss, new trail close to night trail use w/lights
Concerns: are we listening to all stakeholders?
Build more difficult trails so that people don't build illegally

Too special for cattle grazing lease

Fence access and livestock containment
